**Perfect Pizza dough:**

- 1 cup warm water
- 1 TB vegetable oil
- 2 tsp yeast
- 2 tsp sugar
- 1 tsp salt

Use a mixer with dough hook: Mix until yeast is dissolved. Add about 3 cups high gluten bread flour on low speed until the flour and water forms a stiff dough ball (about 3 to 4 minutes). Do NOT knead. Place ball of dough in bowl and cover tightly with plastic wrap. Place in refrigerator and let rise there up to 24 hours...this is crucial to success. Roll the dough out to very thin circle about 24 inches in diameter. Poke holes in dough and bake in 450 degree oven until slightly brown. **Picture** is my new gadgets to help create that perfect pizza dough.

**THE FRANK REPORT**

8.4.2018

*All the news I see fit to print.  
 Freedom of the press belongs to those who own one.*

**This isn't the first time that Democrats have gone berserk over losing an election, demanded war, and wanted to kill the Republican who won.**

**Oh, and they called me a tyrant, too.**

**Some things never change.**

*News reports:*

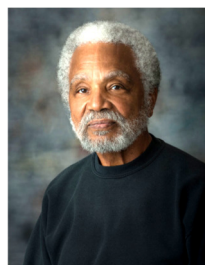

*"When God sends you to do something, you just do it! God is on our side... let's stay the course. Let's make sure we show up wherever we have to show up. And if you see anybody from that cabinet in a restaurant, in a department store, at a gasoline station, you get out and you create a crowd. You push back on them. Tell them they're not welcome anymore, anywhere! Do something. Make something happen."* **Maxine Waters**

**Democrat Senator Cory Booker (NJ) encouraged activists on Wednesday to engage in physical confrontation with politicians, telling them to "get up in the face of some congresspeople."**

**Equal opportunity idiocy:** Republicans keep asking me for money so they can pay the lame stream media for ads denouncing the media who they say are unfair...WTF?

At right is my favorite liberal politician. Spent many afternoons in the Creighton University student union with Nebraska Senator **Ernie Chambers**. Use duckduckgo to find out more...and how he sued God.

**Book Report**

Two more by Michael Connelly. Harry Bosch novels with a fascinating close to both cases...but then noticed 40+ pages still to go and another unique twist to both books. This guy amazes me.

## Internet tips :

DuckDuckGo

DuckDuckGo is an Internet search engine that emphasizes protecting searchers' privacy and avoiding the *filter bubble*\* of personalized search results. DuckDuckGo distinguishes itself from other search engines by not profiling its users and by deliberately showing all users the same search results for a given search term, and emphasizes returning the best results, rather than the most results, generating those results from over 400 individual sources, including crowdsourced sites such as Wikipedia, and other search engines like Bing, Yahoo!, and Yandex.

*\*look this term up on the internet; it will tell you why you should NEVER use Google.*

*"Whatfinger News was founded by military people and 100% unapologetic for being patriotic. That doesn't mean we don't show opposing views, sites and papers. We do and label them on the homepage in sections as right wing or left wing, unlike other sites that might trick you into clicking into sites that you would never want to visit. Not us!"*  
This news site is like The Drudge Report...  
...on steroids.

cCleaner (piriform.com) is a free PC diagnostic tool I have been using for years and recommend highly. They have a professional grade version that is worth the money after you are familiar with the free version. The program flushes out junk while fixing errors in your registry. You don't have to understand what it does...but you'll be happy that it does do it. First time you clean your registry with cCleaner, you'll be amazed at the number of errors and missing links you'll find.

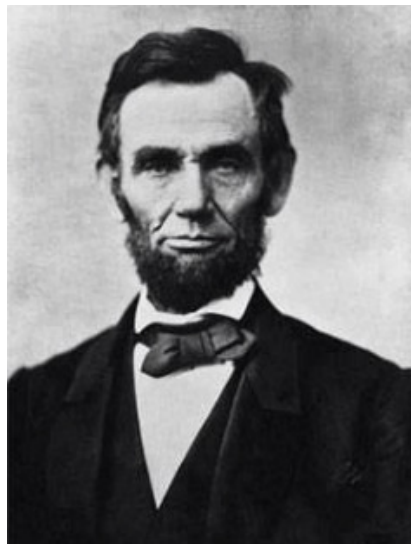

***BLOGS...yes, I'm exploring the possibility of starting a blog. Editor of a major news site has encouraged it and offered to create a link on their website to my blog when I get it up and running. Old dog...new tricks?***

At right is a subtle reminder that you should not believe everything you see or read on the internet. They used the A-10 Warthog for close ground support because the F14 scared the horses.

bigger the audience the closer to the front row.  
If you get caught reporting fake news, you kneel in the back and must wear a red MAGA hat.

That would put Jim Acosta kneeling somewhere in South Dakota with a dozen hats.
