Our Strange World

You have to wear a mask to get money from a bank teller...gun is optional.

Without freedom of speech, we would not know who the idiots are.

You have to get vaccinated to prevent infecting the vaccinated who are protected from infection by vaccination.

The Taliban is interviewing Washington D.C. lobbyists for a contract to lobby for more dollars.

Rapper Nicki Minaj's 22 million fans attacked by Joy Reid's one million. (Who are these people?)

General Milley bugs out of Afghanistan and then calls China to let them know he's on their side.

Apparently, that "joint" in JCS is being smoked and inhaled?

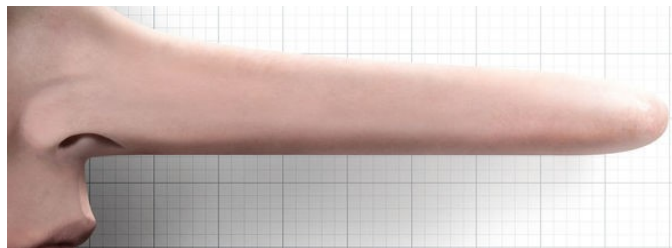

Biden's family owned slaves. Should they pay reparations? Can they pay with Confederate money?

Yes, I'm having more fun than I probably should!

Book Report

Main eight points of his book:

- 1) **Healthcare** - Control healthcare and you control the people.
- 2) **Poverty** - Increase the Poverty level as high as possible, poor people are easier to control and will not fight back if you are providing everything for them to live.
- 3) **Debt** - Increase the debt to an unsustainable level. That way you are able to increase taxes, and this will produce more poverty.
- 4) **Gun Control** - Remove the ability of the people to defend themselves from the Government. Thus less (or no) resistance to a police state.
- 5) **Welfare** - Take control of every aspect of their lives (Food, Housing, and Income).
- 6) **Education** - Take control of what people read and listen to - take control of what children learn in school.
- 7) **Religion** - Remove the belief in God from the Government and schools.
- 8) **Class Warfare** - Divide the people into "wealthy" and "poor," causing discontent: It will be easier to take (Tax) the wealthy with the support of the poor.

Last year. In solidarity with the current crop of “journalists”, I have hung my certificate of peer approved membership in the international fraternity of journalism (Pi Delta Epsilon)...

Now this news report:

Catholic Students Sue Creighton University For Refusing To Grant Religious Exemptions To COVID Vax Mandate. The school set a September 7 deadline for students to file proof of vaccination. The mandate applies to all Creighton students, even those who exclusively attend online classes. The school announced that anyone who refused to present proof of vaccination by the September 7 deadline would be “administratively withdrawn from the school.” Creighton is the only university in the Big East Conference that does not permit religious exemptions, except for the University of Connecticut which calls religious exemptions “personal exemptions.”

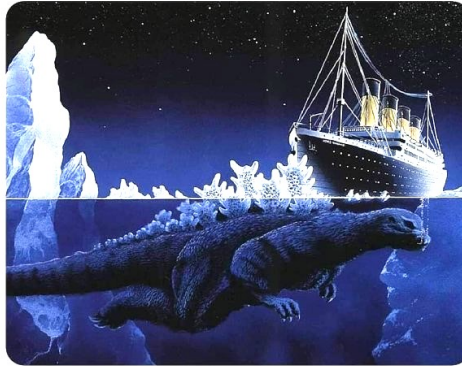

Now I have another certificate for that wall.

The way the pope is ranting and raving, I will also be searching for my baptismal certificate.

I'm going to need a bigger bathroom!!!

They don't want you to know the truth.

Conspiracy theories...a subject I haven't approached yet but I can do them as well as the next guy, or gal, or anyone of the other 64 genders. Let's start with the first Rule for Anarchists: **Control healthcare and you control the people.** A residual benefit of that control would include using Covid to kill off thousands of old people in nursing homes. That would alleviate the strain on Social Security (SS) payments since the politicians drained that fund decades ago. Less people getting those checks means the SS scam can continue for another decade. Then you use those old people deaths to scare the younger people to take the jab which will cut their life expectancy shorter while you raise the age at which they can claim SS. Don't forget to start taxing SS regardless of the fact that they already paid taxes on the SS money confiscated by the politicians. Also authorize SS payments to not jabbed illegal aliens who will be replacing the young Americans who are too sick from the Covid jab to be employed. That will also ensure illegal alien votes based on the fact that they are receiving SS so they are OK to vote. **I will now remove my tin foil hat and watch this all come to fruition.**

Mal Mots

A yawn is a silent scream for coffee.

You're welcome.

While the Democrats are tearing down statues, I've created one for my office. The furry legs (his trademark) were contributed by The Boys. Laughing at this regime is going to be the first step in getting back to some semblance of normalcy. The alternative is drinking a lot and crying.

Until next week...
