This is the small garden in my backyard where I have grown tomatoes, squash, and others. Even with Bidenomics, it seemed more effort than reward with a farmer's market in several local towns. So...this year it was wild flowers. There's everything in there, some with names I can't even pronounce but the area is beautiful. I also don't know the difference between perennial and annual so next year may be a surprise.

The Frank Report

Steve Bannon is still in jail...resting up and getting ready to kick ass and take names. Democrats made big mistake using lawfare on this warrior.

All the news I see fit to print. Freedom of the press belongs to those who own one.

"It must be said clearly: there are those who work systematically and by any means to turn away migrants," the pope said. "When done with conscience and responsibility, is a grave sin."
Mea culpa, mea culpa, mea MAXIMA culpa!
(but I'm not sorry).

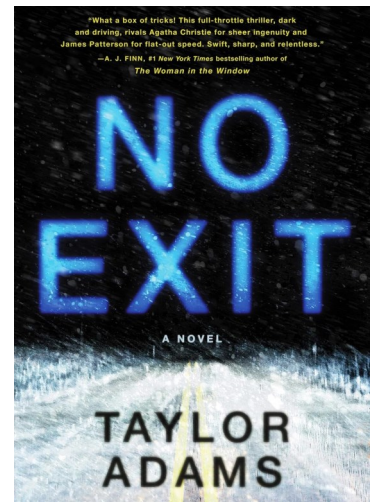

Immigration...**legal** immigration...has been good for America. The pope wants us to welcome all immigration without walls (illegal) while he lives behind walls 40 feet high.

Illegal immigration so far (*that we know of*) during the Biden/Harris years is now more than 12.5 million. That is greater than the individual populations of 45 states. If illegal border crossers were a state, they'd be the sixth most populous state ahead of Illinois. About 75% of the people arrested in just Midtown Manhattan in recent months for crimes like assault, robbery and domestic violence are illegal migrants. May take less than five bucks to have them fill out a mail-in ballot...or just sign the one already filled out.

Democrats are fighting against voter ID. The SAVE act is pending in congress and mandates voter ID for all state federal elections. Local elections are not affected and dogs can still be elected mayors (and even re-elected)...yes, that happened here in Minnesota. Logical since Minnesota elected Keith Ellison as attorney general who just praised Brazil for trying to arrest Elon Musk and shut down the Musk X website.

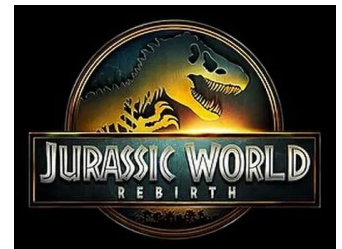

Meanwhile, The Biden admin quietly announced \$380 million in funding for illegals released from DHS custody into our country. Meanwhile Americans can't afford groceries, Hawaii fire victims got \$700, and many veterans are homeless.

Democrats prioritize illegals over Americans.

Book Report

The third of only five thrillers, (*and almost as scary as his 2014 debut novel Eye Shot*), HULU has the movie and did quite well sticking to the plot but their ending was not as good as the book's climax. I do recommend all five and look forward to his next.

Jurassic World: Rebirth is the upcoming sequel, which hits theaters on July 2025. The new installment, which picks up five years after the events of ***Jurassic World: Dominion*** and appears to maintain the strength of this franchise with "woke" nowhere to be found.

Finished ***The Sisterhood*** by Michael Palmer and looking forward to the next three I ordered. Really scary ending that may cause some trepidation on your next hospital visit. Nurses ain't gonna like this one!

Have you noticed that most of the stuff people worry about never happens?

No, I won't change to be accepted by anyone. I prefer weird.

Thomas Jefferson is the latest founding father the Democrats hate because their founding father, Saul Alinsky, says free speech must be controlled.

Thomas Jefferson was terrified of an un-elected Federal Judiciary and almost voted against adoption of The Constitution because of Article III that established one in the new nation. He agreed to support The Constitution only after The Bill of Rights was added. **That ensured that the right to life, liberty and property, free speech, free press, freedom of worship and assembly could NOT be submitted to a vote.** Here's an example of why:

Brazilian Supreme Court Justice Alexandre de Moraes ordered the country's telecom agency to block access to X across Brazil, adding that anyone caught trying to access the social media platform could be fined nearly \$9,000 per day.

He also ordered Apple and Google to stop people from downloading X, as well as VPN apps, which people use to bypass such draconian measures. Moraes has reportedly ordered Musk's platform to ban at least 140 accounts, including some of Brazil's most popular conservative figures and government officials, as well as accounts belonging to Brazilians questioning Bolsonaro's 2022 election loss.

Owners of platforms allowing for free speech have been under attack. Telegram founder and CEO Pavel Durov was arrested in Paris after French authorities accused him of "various violations" involving a "lack of moderation" on his messaging app. Musk commented that it's "probably wise" for him "to limit" his travels to areas where free speech is "constitutionally protected. Free speech is the bedrock of democracy and an unelected pseudo-judge in Brazil is destroying it for political purposes," Musk said.

Former Clinton Labor Secretary Robert Reich said "Elon Musk is rapidly transforming his enormous wealth — he's the richest person in the world — into a huge source of unaccountable (to whom...you?) political power that's now backing Trump and other authoritarians around the world. He may be the richest man in the world. He may own one of the world's most influential social media platforms. But that doesn't mean we're powerless to stop him" Reich said.

Keith Ellison, attorney general for Minnesota — the state where Kamala Harris VP pick Tim Walz serves as governor — celebrated Brazil's supreme court banning Elon Musk's X.

Our current judicial process, invented by lawyers, use terms like mandates, orders, decrees and rulings that other lawyers interpret according to actual laws. God help us!
