Tip of the iceberg!

All the news I see fit to print.

Freedom of the press belongs to those who own one.

Iranian President Masoud Pezeshkian, who is subordinate to missing "supreme leader" Mojtaba Khamenei, declared that his country is in a "full-scale war" with the United States following the disintegration of a "memorandum of understanding" towards peace. That's him on the right looking very nervous.

The two clerics look like they realize those 72 virgins are about to welcome them. Wait till they find out the virgins are goats.

The other three hang their heads as they realize almost 50 years of tantrums, starting with the capture of our embassy during Carter's presidency, and holding hostages until Reagan was elected, are now getting the attention they didn't expect.

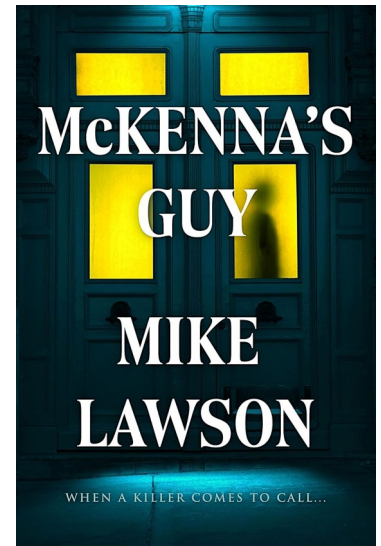

Those tantrums were previously rewarded with billions of American dollars delivered by Obama on pallets late at night before anyone noticed. Obama figured the Lame Stream Media wouldn't report it but he forgot about the internet.

The military guy is wondering what the hell happened as he sees his Navy at the bottom of the gulf and his skies missing all his airplanes. His latest tactic of "ready...fire...aim" has done nothing but piss off his neighbors. When you holler "Death to America" but the missiles wind up in your neighbors yard, they joined us in eliminating these idiots.

Meanwhile:

Trump Admin Wins HUGE Court Battle Upholding President Donald Trump's executive order that directed his administration, primarily the Department of Homeland Security and the Department of Justice, to compile a list of confirmed U.S. citizens from each state who would be legal voters. The DHS was instructed to use federal data to help state election officials verify eligible voters. The executive order also directed the U.S. Postal Service to only deliver ballots to voters on each state's approved mail-in ballot list. Here's the key language of the ruling: states must submit their mail-voter lists and **every ballot envelope must carry a uniquely serialized barcode so each ballot is tracked outbound and returned.**

Stay focused people...Trump is laser focused on Iran regime change and election integrity. Everything else is noise generated by the Lame Stream Media to prevent success in these two critical areas. Be sure to vote R in the primaries even if you have to hold your nose.

Book Report

Although best known for his 16 novels in the **Joe DeMarco** series, this stand alone is a hoot. Ordinary guy sucked into a criminal episode that plays out way different than you think it will. Highly recommend.

President Donald Trump has directed federal agencies to waive the nondisclosure agreements that former government employees and contractors signed while they were working on investigations involving unidentified anomalous phenomena (UAPs), also known as UFOs.

President Trump is using logic and common sense in his decision. Given the decades of interest in the subject, he knows that any "visitor" from outer space will take one look at what's going on here and they'll lock the doors to their space ship and keep on going.

Maybe a few more decades and they will have a safe landing space at Mar A Lago and Barron can officially welcome them.

New York Times article telling their readers about a guy getting deported even though he had lived in the United States for 20 years since he was a teenager. The fact that the "teenager" spent 19 of those 20 years in prison didn't seem to be important.

There's debate about whether **The View** is a news program. Here's a story they forgot to mention: Police released body camera footage of "The View" co-host Sunny Hostin's son, Gabriel Hostin, being detained by officers and cited for trespassing as Sunny tries to talk the cops out of citing her son **last month**. She told police she was a former prosecutor and her son is a Harvard grad. Gabriel told police his mom was a lawyer and he wanted their names and badge numbers. I'll bet Whoopi agreed with Sonny but what else to expewct of someone who's only claim to fame is having a cushion named after her.
