

Remember this idiot?
Judge James Boasberg, who confronted the Trump admin over its 2025 deportation flights, was a **nine-time host** for a Chinese law exchange funded by a Chinese Communist Party-linked spy front. He literally wanted planes filled with illegal aliens to turn back in mid-flight.

Now you know why Democrats don't like history taught in schools?

Fifty years ago a teacher would be fired for teaching the Communist Manifesto. Today they would be fired for teaching the Bible.

Minnesota Dem Candidate Peggy Flanagan Claims She's 'Appalled' by Massive Welfare Theft — But '25-Year Friend' Standing Next To Her In This Picture is Now Under Medicaid Fraud Investigation.

Army Flight Surgeon Drops Bombshell in Federal Court.
29 Troop Deaths After the COVID Shot, 55,000 Adverse-Event Reports, and 2,544 Death Files Now Under Review

Army Lt. Col. Theresa Long, a retired Army flight surgeon now serving as senior medical military adviser to Health Secretary Robert F. Kennedy Jr. and reporting to War Secretary Pete Hegseth, filed a sworn declaration in *Adirim v. U.S. Central Intelligence Agency et al.*, in the Eastern District of Virginia. Dr. Terry Adirim, the former acting assistant secretary of defense for health affairs under Biden's SecDef Lloyd Austin, signed the September 14, 2021 Pentagon memo addressing the interchangeability of FDA-licensed Comirnaty and Pfizer-BioNTech COVID-19 vaccine doses administered under emergency use authorization. Adirim was quietly moved to the CIA's Center for Global Health Services and then fired after President Trump returned to office. She sued the CIA, Director John Ratcliffe, and retired Green Beret Ivan Raiklin to claw her way back and to brand Raiklin's accusations as defamation suing Ivan Raiklin over statements he made about her role in implementing the military's COVID-19 vaccine mandate. In addition to the adverse health reports, about 8,600 service members were thrown out. Tens of thousands left early, 20,000 retired early. Nearly a million were ordered to take a product that service members had a statutory right to refuse absent a presidential waiver Biden never issued.

Rep. Andy Harris (R-MD), a physician and former Naval Reserve medical officer, put it in language Washington cannot spin: "*Anthony Fauci got an autopen scribble pardon,*" Harris said. "*Dr. Adirim has no pardon.*"

The VA will consider disability compensation "*if an in-service diagnosis of Covid-19 or Covid-19 vaccine results in a chronic condition.*" There is no automatic presumption of service connection for vaccine injuries yet, so veterans must file a claim and prove a medical link between the vaccine they were forced to take and their chronic condition.

Vets can file a VA disability claim for vaccine reaction, but need to prove the connection. (H.R. 1671, 119th Congress) was introduced in February 2025 and would establish a presumption of service connection. It remains in committee and ***has not been enacted. Thune strikes again!***

Biden shut down oil and gas production, closing refineries. Gavin Newsom closed two large refineries in California over the last 12 months. Then there was Biden's pause on new federal oil-and-gas leasing and cancellation of the Keystone XL pipeline (2021 executive actions).

The Biden EPA tightened methane rules for oil and gas and issued the strongest-ever tailpipe standards for model years 2027–2032, designed to push more electric and hybrid vehicles. The methane rules added compliance costs for oil and gas producers.

Renewable Portfolio Standards and 100 percent clean-energy laws were enacted or strengthened in California, New York, New England, and other Democratic states.

Biden's cap-and-trade program for power-plant CO₂ covering most Northeastern and Mid-Atlantic states, supported by Democratic governors. Costs were added to wholesale power prices. Biden pushed EV's and then raised electricity price!

Democrats like to attack evil American oil companies and block them from drilling off our coasts. But, it doesn't seem to bother them when China starts drilling for oil in these same areas 50 miles from Key West.

About Greenland:

Trump offered to buy it. They said no...but you can have it for free. The Art of the Deal!

curmudgeon quotes

God says we should love our neighbor. He also said to love our enemies. Same people?

If liberals say we can pick our gender, what if Trump wears a wig and claims to be the first woman president?

**Safest airline?
Seats covered with pigskin?**

**People are like books.
Some deceive you with their cover while others surprise you with their content.**

**Reminder for politicians:
The Constitution limits the power of the government, not the citizen.**

**Property tax means the government is your landlord.
It's the rent you pay for owning your home.**

I don't believe what politicians say because I can see what they do.

**Survival tip for travelers:
Never get ON an airplane.
Make sure you're IN it.**

**Survival tip for illegal aliens:
Deportation is the moderate solution.**

Politician's problem creative skills are greater than their problem solving skills.

Don't complain about the economy if you have a second refrigerator in your garage just for beer.

If the economy is dead, why is Toys 'R Us opening 120 new stores for Christmas season?

We need freedom of speech so we'll know who the idiots are.

**Voter ID is a good idea.
Voter IQ is a gooder idea.**

Why do most people who wear sweat pants...don't?

The Universal Service Fund (USF), has an \$8 billion to \$8.5 billion annual budget. The program distributes funding to providers to deliver internet service in rural areas where market forces cannot support the significant cost of deploying terrestrial-based network infrastructure to provide connectivity. The USF's own data show that 97 percent of Americans have access to two or more broadband providers. The small number of U.S. residents on the wrong side of the divide can be serviced better by low-earth orbit (LEO) satellite providers like Elon's Starlink. There is still no definitive cost/benefit inventory of all federal programs, despite having been required by law since 2011. A Government Accountability Office report in 2015 estimated there were more than 80 federal programs intended to "help" people, even Somalians?

EPA got serious too as it Finalizes Repeal of 2024 Power Plant Regulations, Delivering \$300+ Billion in Savings, Repealing of All Remaining Greenhouse Gas Emissions Standards for Power Plants. The start of lower rates and more than enough for data centers.

Where we're at:

Stocks at record highs. GDP at 5.1%. Real incomes at record highs. Poverty at record lows. Food inflation below 20 year average. Factories at 82% capacity. Standard of living best ever. Crime at record lows. Meanwhile, Democrats are complaining about it. Trump's approval rating on his "handling of the economy" now stands consistently below 40%. *I guess the price of gas is the only factor people consider?*

BIDEN

OIL	\$115
GAS	\$5.02
INFLATION	9.1%

TRUMP

OIL	\$84
GAS	\$4.06
INFLATION	3.4%

All the AI companies asking for government regulation. **Sneaky play** avoids lawsuits coming from stolen tech so no liability if government controlled.

Tidbits

(a small and particularly interesting item of gossip or information)

Minnesota ranked 45th nationally in a new report examining election integrity across all 50 states. Only Nevada, Washington, Oregon, Vermont, California, and Hawaii scored worse than Minnesota
Color me shocked!

New analysis from the Progressive Policy Institute, hardly a conservative institution, has found that blue states with stronger teacher unions produce lower reading scores.

Suicide by loud mouth...Alan Richston does it again as the 4th in the Reacher series hits Amazon. Even the studio bosses told him to "shut the f**k up" but he didn't listen. He claims to be bipolar. I think he's just stupid. Anyway, the new Naegley series starring Maria Sten is much better.

DOJ Puts Minnesota on Notice: Permit to Purchase Firearms 'Law' Violates The Constitution.

Peggy Flanagan, Timmy's LtGov and running for Senate, said she's been "friends for almost 25 years" with Nimco Ahmed. DHS confirms an autism center operated by Ahmed of being "fraudulent." *I'm shocked!*

Trump Bans CNN, Politico and MSNOW from the White House For Repeatedly Reporting Fake News.

Trans woman cleared of flashing her/his/it penis at Ohio YMCA after judge ruled he/she/it too fat for her/his/it genitals to be visible. *I can't figure out if I need a drink or eye bleach after that "news" story.*

CNN Sues Trump For Violating Their First Amendment Right To Fabricate The News

Until next week...
